

Graduate Electrical Engineer

Position Vacant

MPower Group Limited is a technology-led company with a long history specialising in the delivery of reliable on-grid and off-grid power solutions for blue chip corporate and government customers. Headquartered in Sydney, MPower's team of professionals has successfully delivered turn-key solar, battery storage and microgrid projects across the Australia-Pacific region.

MPower is looking for a Graduate Electrical Engineer who has a passion for renewable energy to join our team. This is a fantastic opportunity to be a part of an innovative and highly motivated team of energy professionals, delivering a diverse portfolio of clean energy projects.

To be successful in this role you will have:

- A bachelor's degree in an appropriate and recognised engineering discipline
- Accreditation from Engineers Australia based on your recognised engineering degree
- Well-developed communications skills, with excellent oral and written communication skills
- A keen interest and passion for renewable energy
- A thorough understanding of electrical engineering, including electronics, instrumentation, and control systems
- Excellent attention to detail and strong organisational skills

Are you a Graduate Electrical Engineer who is looking for your next career challenge? If you feel you have what it takes to be part of the MPower team, then apply by emailing careers@mpower.com.au and attaching your cover letter and CV.

MPower is an equal opportunity employer committed to creating and supporting a diverse and inclusive workforce that is free of all forms of discrimination.
